What We Do

DIGITAL TRANSFORMATION
Accelerate move to the cloud by developing cohesive cloud strategy, business cases, assessment, planning, and backlog prioritization.

PLATFORM ENGINEERING
Develop Full-stack development of cloud-native platforms and products engineered using open frameworks to deliver autoscalability, and security.

QUALITY AUTOMATION
Automate the quality processes to construct a CI/CD pipeline that will yield predictable high-quality product updates each sprint.

USER EXPERIENCE
Design Responsive UX built on sound design-thinking principles, including journey maps, personas, Information architecture, prototyping, and usability testing.

DATA INTELLIGENCE
Analyze Machine learning, data analysis, and AI at cloud scale by leveraging analysis platforms and models to yield actionable business intelligence.

CLOUD OPERATIONS
Assure cloud-native services to meet the requirements for security, availability, responsiveness, and reliability by monitoring and optimizing operations.

How We Help

ENGAGEMENT MODELS
We have flexible engagement models to facilitate right-sized collaboration with our clients.

AGILE PROCESSES
Our team have deep expertise in Agile Scrum processes to strong project governance.

TECHNOLOGY SKILLS
Our team have leading full-stack open- source tools, platforms, and languages.

PUBLIC CLOUDS
We have deep expertise in AWS, Azure, and Google cloud services.

TECH ACCELERATORS
We have several technology building blocks that can accelerate your development.

ECO CONNECTORS
We have excellent expertise in building ecosystem connectors.

Customer Success Stories

CISCO Unified Datacenter Management & Orchestration	**aruba** Wi-Fi Network Health and Security Analysis and Optimization	**splunk>** Operational Intelligence Platform Using Latest Big Data Analytics	**vodafone** e-Commerce Platform (GroupOn-Style) for Vodaphone Subscribers	**upstream** Mobile Commerce and Cloud Platform for a Tier 1 EU Service Provider	**bluedata** Big-Data-as-a-Service Platform for Hadoop, Spark, Cloudera, MapR
DIGITAL GUARDIAN Enterprise Data Security and Cloud DLP and Network Security	**Hewlett Packard Enterprise** Network Orchestration for Wireless Networking and Optimization	**Liander** SmartGrid Management for Community Solar Power Generation	**THE FINANCE SCHOOL** FinTech Platform for Educating Professional Stock Brokers	**Talena** Data Management Platform for Cassandra, HBase, Vertica, Hive,..	**ACCELERA** SDN Platform for Optimizing Wi-Fi Network
Nimbler SocialTech Platform (Uber-Style) for Local Commuters	**CipherCloud** Cloud Application Security Broker (CASB) for Enterprise	**Conn's HomePlus** e-Commerce Platform for a Major Furniture Retailer	**CyberFlow** CyberSecurity Platform Using Advanced Network Flow Analytics	**COLORTOKENS** DevOps Automation for CyberSecurity Analysis	**virsec** Automated CI/CD for AWS Cloud Security Solution
